Framed Florets Dies
 Stitched Rectangle Dies
 Celebrations Tags Dies
 Layering Oval Dies (Retired)
 Rhinestones
 Stampin' Dimensionals
 Multipurpose Liquid Glue
 Shimmery Crystal Effects (Retired)
 Stampin' Emboss & Cut Machine

Instructions:

- Score & fold at 2-3/4" and 5-1/2". On front of card attach a Basic White 2-1/2" x 4" card stock to the top of the 2-3/4" fold line and one below it. Then attach a piece of the Dainty Flower 2-3/8" x 3-7/8" DSP to the two Basic White pieces on card front.
- Attach the Basic White 5-1/4" x 4" card stock to inside of card. Then attach the Dainty Flowers 3" x 3-7/8" DSP to the bottom part of the Basic White.
- Onto the Basic White scraps, Stamp the bunny, floral garland, eggs & butterfly from the Easter Bunny stamp set using the Memento stamp pad. Color each in using the above listed markers & blender pens. Fussy cut each piece out and set aside until you've created the frames in the following steps.
- Using the oval die with the hearts from the Framed Florets dies set punch out the Blushing Bride 3-3/4" x 4-3/4" card stock. Using the oval die from the Layering Ovals dies set, punch out the Basic White 3-3/4" x 4-3/4" card stock. Using the Liquid Glue attach to the back of the heart oval you just punched out. Next, punch out the flower oval from the Dainty Flowers DSP using the 3-5/8" x 2-3/4" oval die from the Framed Florets Dies set. It will just be the outer oval so I recommend using the liquid glue and center between the hearts on the oval you just put together. Then punch out the Blushing Bride 3-1/4" x 4" card stock using the same die you just used except using the center only. Attach to center of the flower oval using dimensionals. Also using dimensionals, attach bunny, garland, 2 of the eggs and butterfly as shown above. I used rhinestones that were not SU to get some smaller ones to put in the center of the flowers on the garland. Then I used the Shimmery Crystal Effects to brighten up the eggs and flowers.
- Stamp the Happy Easter from the Easter Bunny stamp set onto a Basic White scrap using the Memento stamp pad. What I did was masked first the Easter and stamped the Happy and then cleaned and masked the Happy and stamped the Easter underneath it. I hand wrote the 1st in front of the Easter using SU Basic Black marker. Punch out using the 1-1/8" x 2-1/8" scallop rectangle die from the Celebrations Tags Dies. Next, I punch out the Parakeet Party scrap using the stitched rectangle from the same dies set. This one is a little larger in width so I punched again to make it smaller to fit the Basic White you just punched out as shown above. Attach the scallop Basic White to the Parakeet Party and attach to the card as shown above using dimensionals. This will help the easel card stand as shown above.
- Fussy cut the last egg and attach to the label as shown above. Attach additional rhinestones as desired and you are now done!!
