Supplies/Accessories:

Cabin Dies

Deckled Circles Dies

Stylish Shapes Dies

Nested Essentials Dies

Simple Elegant Trim

Iridescent Rhinestones Basic Jewels

Stampin' Dimensionals

Stampin' Cut & Emboss Machine

#2 Pencil

Instructions:

1. Score and fold Basic White Thick 4-1/4" x 11" at 5-1/2" to form card size of 5-1/2" x 4-1/4".
2. Attach Azure Afternoon 5-1/4" x 4" card stock to card front. Using the 2-1/2" circle from the Deckled Circles Dies set, punch out circle from the card front about 1/3 of the way down card front. Next, holding the Snowflake Splendor 5-1/8" x 3-7/8" DSP where you plan to adhere it and open the card carefully, laying it down to draw a light circle on the back side of the DSP. Then using the 2-7/8" circle from the Stylish Shapes dies set, center around the circle you just drew, punch out using the Stampin' Cut & Emboss Machine. Attach to card front centering around the Azure Afternoon circle as shown above.
3. Stamp the Basic White Scrap with verse of choice from the Peaceful Cabin stamp set using the Night of Navy stamp pad. Punch out using the 2nd largest label die from the Nested Essentials Dies set. You will need to reposition the die again to cut the label down ensuring you've lined up the dots on the die. This will help you center it. Using a little adhesive, attach some silver cord from the Simple Elegant Trim pack, looping back and forth. This will be a faux bow, no tying needed. Using dimensionals, attach label over the cord. Add several Iridescent Rhinestones Basic Jewels randomly on card front.
4. Attach the Basic White 5-1/8" x 3-7/8" card stock to the Azure Afternoon 5-1/4" x 4" card stock and attach to inside of card. Close the card, and from the front of the card, make little pencil tic marks in order to position the cabin from the Peaceful Cabin stamp set. Once you made the marks, using Night of Navy stamp pad, stamp the cabin from the same stamp set to inside of the card. Then, using the same stamp pad and stamp set, stamp the snowflakes randomly around the cabin as shown above. You are now done!!
