Classic Gift Card Envelopes

Stamp Sets:

Christmas Classics
Brightest Glow
Sending Cheer

Ink:

VersaMark Stamp Pad
Gold Embossing Powder
Tuxedo Black Memento Stamp Pad

Supplies/Accessories:

Christmas Classics Dies
Iridescent Adhesive-Backed Discs
Stampin' Dimensionals
Stampin' Cut & Emboss Machine
Heat Tool

Instructions:

1. Score Basic White 4-1/4" x 11" card stock at 2-3/4" and 5-1/2". Fold on the 2-3/4" score line in one direction and fold the 5-1/2" in the opposite direction to form a mountain fold.
2. For the first fold, attach Cherry Cobbler 2-5/8" x 4-1/8" card stock. Then attach the Winter Meadow 2-1/2" x 4" DSP.
3. For the second fold, attach the 2nd piece of Cherry Cobbler 2-5/8" x 4-1/8" card stock. Next, stamp "For You" from the Sending Cheer stamp set onto the gift card envelope flap using the Memento stamp pad. Attach to the Cherry Cobbler you just attached. Then, attach the Winter Meadow 2-1/4" x 2-1/2" DSP to the envelope. Use adhesive on 3 sides of the DSP and leave the top of the piece without to ensure you can still tuck in the envelope flap.
4. Attach Cherry Cobbler 5-3/8" x 4-1/8" card stock to inside of card. Attach the Winter Meadow 2-5/8" x 4" DSP to the right side of the Cherry Cobbler. Stamp verse from the Brightest Glow stamp set onto the Basic White 2-1/2" x 4" card stock using VersaMark, then heat emboss using the Gold embossing powder. Attach to the left of the DSP you just added.
5. Using the holly frame die from the Christmas Classics Dies set and Stampin' Cut & Emboss Machine, cut out the Cherry Cobbler 4-1/4" x 4-1/4" card stock. Set aside until the following steps are completed.
6. Attach the Gold 2-3/8" x 2-3/8" paper to the center of the piece from step 5.
7. Stamp verse from the Christmas Classics onto the Basic White 2-3/8" x 2-3/8" card stock using VersaMark and heat emboss using the Gold embossing powder. Attach to the center of the piece from steps 5 & 6.
8. Using dimensionals, attach the Cherry Cobbler 1-1/4" x 2-3/8" card stock to the back of the frame to the side that won't be attached to anything. Then using regular adhesive, add to the other half of the frame and attach to the flap on the right of the card front as shown above. The little piece you just added will keep the frame from getting bent.
9. Attach Iridescent Adhesive-Backed Discs to the frame of card front as shown above and you are now done!!
